SPORTS

FOOTBALL

At the end of a series of successful matches played by the touring Hungarian football teams the representative team of Hungary met that of Portugal at Lisbon. The Hungarian team, which had hitherto been so successful in its performances, suffered this time an unexpected defeat by 4 : 0. This defeat, the Hungarian sport press maintains, must be ascribed to the mismanagement of our football sport.

Nor can the victory of the Hungarian team by 6 : 0 over the representative team of Luxembourg make up for this defeat, since it is generally known that Luxembourg is not regarded as a first class football country.

It is reported by the Hungarian press that, after having completed its matches for the championship, the representative team of Wales will undertake a tour to Central Europe, visiting Vienna, Budapest and Prague.

ATHLETICS.

Negotations recently opened at Vienna regarding the arrangement of a women's all-Europe championship contest have resulted in an agreement that the contests for 1938 will be held at Vienna about the middle of September. The programme is to comprise the following events: 100 and 200 metre flat races, 4 × 100 metres relay race, 80 metres hurdle race, high and long jumping, putting the weight, and thowing the discus.
